Hi Bolat
Thx. Expect a call tomorrow from one of Elsmed Principals, probably Xhen, or Ronen(CEO). You should encourage them to come asap to Kazakhstan for first hand impression.
How many beds you think are planned for the Hospital ?
Best

> Shalom, Ehud! I was out and only now checked my mail. Ter-ko explains that by Public-Private partnership they mean that the government represented by the governor of Chimkent oblast does its part by building the hospital for about 5 billion tenge (approx 27 mil. dollars), Tomorrow I will find out if equipment is included into this sum. The private partner on his part (for example ElsMed) decides what is necessary to turn the hospital into a functioning facility and invests whatever is necessary(25 mil is just a figure, the exact sum will be clear depending on whether extra expenses incur). The private partner is to manage the hospital, earn profit to return the initial investment of both the government and own. Ter-ko says that the private partner is expected to invest in the after-construction stage. Tomorrow I will discuss all details with the vice-governor in charge of the project. Cheers
